Ruud **Voorjans**

Cloud / DevOps Engineer

Simpelveld

ruud.voorjans@rudesome.nl | rudesome | rudesome

Summary

Cloud / DevOps engineer with 15 years in IT, grown from sysadmin into building and automating cloud platforms. I design and run cloud-native infrastructure on Azure and Kubernetes, turning manual toil into IaC, CI/CD and GitOps with tools like Terraform, Bicep, Ansible and Argo CD. Outside of work I tinker in my homelab, automate the boring bits and keep learning the next thing. Happiest when everything is reproducible, version-controlled and just a git push away, and passionate about open source.

Work Experience

Zuyderland — *Sittard*

Cloud / DevOps Engineer — *Aug 2025 – Present*

- Architected highly available Azure Local clusters with Rack-Aware Clustering for business continuity.
- Built GitOps-driven AKS clusters with Argo CD for automated, reproducible deployments.
- Automated configuration management with Ansible and AWX on Kubernetes.
- Delivered auto-scaling CI/CD pipeline agents using KEDA.
- Drove the shift from traditional operations to cloud-native DevOps, reducing reliance on VMs in favor of managed platform services.
- Onboarded VMware workloads to Azure Arc for centralized governance.
- Managed Azure Local clusters as code with Bicep.

AZL — *Heerlen*

Cloud / DevOps Engineer — *Feb 2023 – Jul 2025*

- Built an AKS cluster meeting the strict compliance and security standards of a financial company.
- Developed a self-service “DevOps Platform” for multiple teams with Terraform and Azure Pipelines.
- Operated an event-driven landscape on Event Hubs, Service Bus and Kafka.
- Designed an Azure RBAC model in Terraform to meet high-security access requirements.

KEMBIT — *Wijnandsrade*

DevOps Engineer — *Jan 2022 – Jan 2023*

- Ran containerized services across Docker and Kubernetes clusters.
- Automated IT operations across multiple clients as an MSP.
- Built integrations to synchronize data between information systems.

KEMBIT — *Wijnandsrade*

System Administrator — *Aug 2018 – Dec 2021*

- Maintained on-premises and cloud (Azure) server environments.
- Diagnosed and resolved incidents across diverse customer environments.
- Designed and implemented CI/CD for application deployment with Chocolatey for Business (C4B).
- Planned and applied complex changes and proposed efficiency improvements.

TRUE — *Beek (MAA)*

Service Desk / System Administrator — *Aug 2017 – Jul 2018*

- Managed on-premises Microsoft environments.
- Maintained Debian and FreeBSD web hosting platforms.
- Administered networking and firewalls (Juniper / pfSense / Fortinet).

MeanderGroep — *Landgraaf*

System / Network Administrator — *Jul 2015 – Aug 2017*

- Administered Microsoft server environments.
- Engineered and maintained Cisco networks.

Data4 — *Beek (MAA)*

Project Engineer — *Apr 2013 – Nov 2015*

- Delivered migration projects to newer operating systems and cloud across multiple companies.
- Provided service desk support at Maastricht University Medical Centre (MUMC).

GETRONICS / KPN — *Beek (MAA)*

Service Desk — *Aug 2010 – Mar 2013*

- Handled IT service desk operations (incidents, changes) for large national and government organizations.

Certifications

Feb 2016	**ITIL Foundation Certificate in IT Service Management**, Credential ID: 5617689.20506583	*EXIN*
Feb 2017	**Cisco Certified Network Associate (CCNA) Routing and Switching**, Credential ID: 427924169524DTDF	*Cisco*
May 2019	**Information Security Foundation based on ISO/IEC 27001**, Credential ID: 6269146	*EXIN*
Nov 2019	**MCSA: Windows 10**, Credential ID: H070-9469	*Microsoft*
Feb 2020	**Microsoft 365 Certified: Modern Desktop Administrator Associate**, Credential ID: H357-2019	*Microsoft*
Aug 2020	**Microsoft Azure Administrator Associate**, Credential ID: 16560902	*Microsoft*
Oct 2021	**Microsoft Azure Developer Associate**, Credential ID: 16560902	*Microsoft*
Jan 2023	**Certified Kubernetes Administrator (CKA)**, Credential ID: LF-pok4t37yw6	*CNCF*

Education

Arcus College *Heerlen*

MBO 4 ICT – System Administrator *2005 – 2010*
